Section 1: Why Choose BreatheFree?

The Breathwork Solution to Quitting Nicotine, Designed for Calm and Control

What is BreatheFree?

BreatheFree is a portable, pocket-sized device that guides you through breathwork exercises to help reduce nicotine cravings and boost mindfulness. Using haptic feedback (vibrations and lights) and integrated breath sensors, BreatheFree keeps you on track to quit for good. The device pairs with a 16-week program designed to hold you accountable, educate you, and empower you to take control.

Why Breathwork Helps with Quitting

Nicotine addiction is both physical and psychological, making it tough to break free. BreatheFree replaces the habit loop of reaching for nicotine with a healthier ritual. By practicing breathwork, you engage your body and mind in a calming activity, naturally soothing cravings. With BreatheFree, you're not just quitting—you're building a new habit that fosters calm, mindfulness, and self-control.

Section 2: How It Works

A 16-Week Guided Journey to Lasting Change

BreatheFree's app and device work together to support you through each stage of quitting, breaking down the journey into manageable steps.

- **Week 1: “Hell Week”** – Face the hardest week with guided breathwork to manage intense cravings and build resilience.
- **Week 2: “Heck Week”** – Experience better sleep, reduced anxiety, and increased focus as nicotine fades from your system.
- **Weeks 3-8: Building Resilience** – Strengthen your routine with deeper mindfulness exercises and coping strategies.
- **Weeks 9-16: Freedom and Beyond** – By the end of the program, you’ll have a sustainable mindfulness routine to stay smoke-free.

BreatheFree isn’t just about quitting nicotine—it’s about transforming your lifestyle. After 16 weeks, you’ll feel more in control, calmer, and healthier, equipped with lifelong tools for better mental and physical wellness.
